Case No.: 11-5243 RS (JSC)

**ORDER RE: ADMINISTRATIVE  
MOTION TO FILE UNDER SEAL  
(Dkt. No. 246)**

19 Now pending before the Court is Plaintiff's Administrative Motion to File Under Seal  
20 portions of its also pending Motion to Compel (Dkt. No. 247) and certain exhibits submitted  
21 therewith. (Dkt. No. 246.) Plaintiff seeks to file the documents under seal because Defendant  
22 designated the documents as highly confidential pursuant to the stipulated protective order  
23 governing this action. The motion to seal is granted in part and denied in part as set forth  
24 below.

25 In accordance with Local Rule 79-5(e)(1), Defendant, as the party asserting that the  
26 documents are confidential, submitted a declaration in support of Plaintiff's motion to seal.  
27 (Dkt. No. 249.) A request for sealing must be "narrowly tailored" and establish that the  
28 "document, or portions thereof, are privileged, protectable as trade secret or otherwise entitled

1 to protection under the law.” L. R. 79-5(b). Defendant contends that 19 of the exhibits  
 2 submitted with the motion to compel and portions of the motion to compel contain highly  
 3 confidential information, and thus, should be filed under seal. The Court finds that Defendant  
 4 has established good cause for sealing Exhibits 1, 6, 11, 12, 13, 14, 15, 16, 19, 20, and 21.  
 5 The motion is therefore granted with respect to these exhibits.

6 Defendant’s request to seal the remaining exhibits and portions of the motion to  
 7 compel is not narrowly tailored to only seek sealing of protectable material. For example,  
 8 Defendant has not shown good cause to seal references to “business plan,” “profit and loss  
 9 statements,” or “P&L Projections” in the motion to compel. The contents of these documents  
 10 may contain confidential information, but the fact that they exist is not confidential. With  
 11 respect to the documents themselves, although portions of the deposition of Mr. deBlasi  
 12 (Exhibit 3) may be confidential, the fact that Round Rock is a Delaware Corporation, that Mr.  
 13 deBlasi is the CEO, and the identity of the other executives is not confidential information.  
 14 Likewise, portions of the deposition of Mr. Demarais (Exhibit 5) may be confidential, but  
 15 Plaintiff has not established good cause for sealing information regarding his position as  
 16 Chairman of the Board with Round Rock or similar information. With respect to the emails  
 17 (Exhibits 7, 8 & 9), although portions of the emails may be confidential, the header and  
 18 scheduling or logistical information within the emails is not. The privilege logs (Exhibits 10,  
 19 17 & 18) should not contain confidential information as a privilege log by its very purpose  
 20 seeks to shield confidential information from disclosure and only contains that information  
 21 which is necessary to show that the underlying documents are privileged.

22 Accordingly, the administrative motion to seal is GRANTED IN PART and DENIED  
 23 IN PART. Within 7 days of this Order, Defendant may refile a declaration in accordance  
 24 with Rule 79-5 that is narrowly tailored to only seek sealing of protectable material.

25 **IT IS SO ORDERED.**
